2022-23 OTTER PELT TAGGING REPORT

Prepared by Matt Peek, Furbearer Biologist

Kansas has had a river otter harvest season since 2011. The season is open statewide concurrent with beaver season (Nov 16, 2022-Mar 31, 2023), and like beaver, otters may only be trapped or salvaged. There was a 100 otter season quota for the first two seasons, but the season quota is now unlimited. A two otter per trapper bag limit was in place until 2019 when units were established with a one to five otter bag limit. The bag limit was increased to 10 in several units this season (Figure 1).

Like bobcats, river otters are CITES Appendix II (“look-alike”) species which are pelt tagged not because of their own lack of abundance, but because they look like species that are threatened or endangered. Pelt tagging is mandated by the U.S. Fish and Wildlife Service (USFWS), and is accomplished with tags provided by the USFWS Office of Management Authority, under the CITES Export Tag Program. In 2022, Kansas used white “KS ROTR” tags below number 0002700. A total of 47 KDWP employees and offices were issued tags for the season. These were mostly in or near the primary otter range, but tags were also maintained by regional and district offices as well as the Pratt Operations Office.

A total of 298 otters were taken in Kansas during the season, which is our highest recorded harvest to date. The number of otters taken annually since the otter harvest season was established is provided in Figure 2. This figure includes those otters incidentally taken after a 100 otter quota was reached the first two seasons as well as a few otters confiscated as a result of exceeding bag limits during previous seasons.

Otters were taken in 7 of the units (Table 1). A bag limit of at least one is maintained statewide because nearly all otters taken in areas where otters are scarce are taken by trappers targeting beaver, and allowing trappers to keep these incidentals rewards accurate harvest reporting. The 29 counties from which otters were taken this season are shown in Figure 3, along with other counties from which otter have been taken since the season opened. Figure 4 shows the number of otters taken each day of the season.

Otters may be taken using trapping equipment authorized in K.A.R. 115-5-1 or salvaged during the harvest season. A total of 113 furharvesters took otters, and the total season bag per furharvester is found in Table 2. Table 3 provides a breakdown of the methods furharvesters used to take otters and the primary species they were targeting when the otter was taken. Table 4 provides the waterbody or location type from which otters were taken.

After the initial tag allocation, tag accountability was maintained via reports from KDWP employees or offices issued tags. After the season, each was responsible for inventorying unused tags and accounting for all tags they were issued. Unused tags were then destroyed, retained by each tagger, or returned to the Emporia office. One otter salvaged outside the legal harvest season this year is not included in this report.

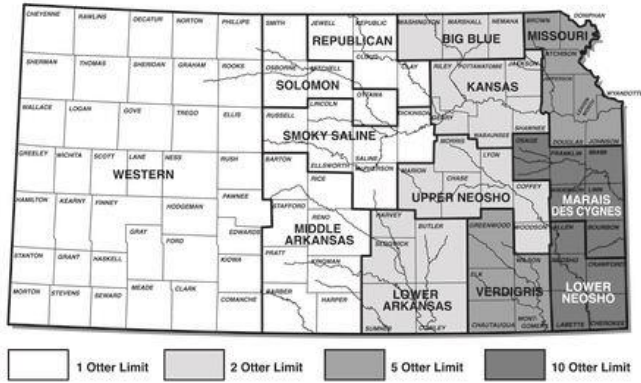

Figure 1. Otter management units and associated bag limits. Trappers could take up to 10 otters in any combination of units as long as they did not exceed the unit bag limit in any unit.

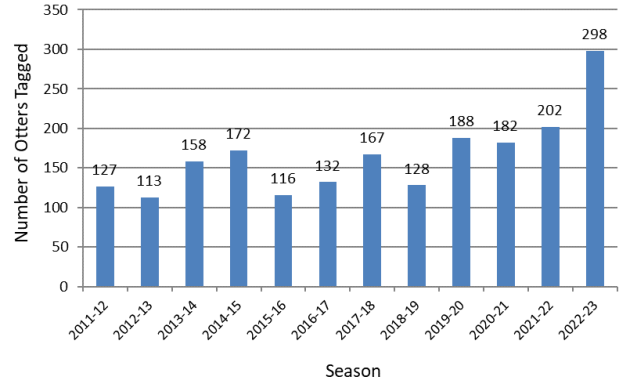

Figure 2. Number of otters pelt tagged annually since the season was opened in 2011.

Table 1. Otter harvest by management unit during 2022-23 season.

Unit	Bag limit	Harvest	Counties	Counties in Unit	% Counties with Harvest
Lower Neosho	10	117	5	5	100
Marias des Cygnes	10	107	6	6	100
Missouri	5	32	6	8	75
Verdigris	5	21	5	5	100
Upper Neosho	2	14	3	6	50
Lower Arkansas	2	6	3	6	50
Kansas	2	1	1	3	33
Big Blue	2	0	0	5	0
Middle Arkansas	1	0	0	8	0
Republican	1	0	0	4	0
Smoky Saline	1	0	0	6	0
Solomon	1	0	0	4	0
Western	1	0	0	39	0
Total		298	29		

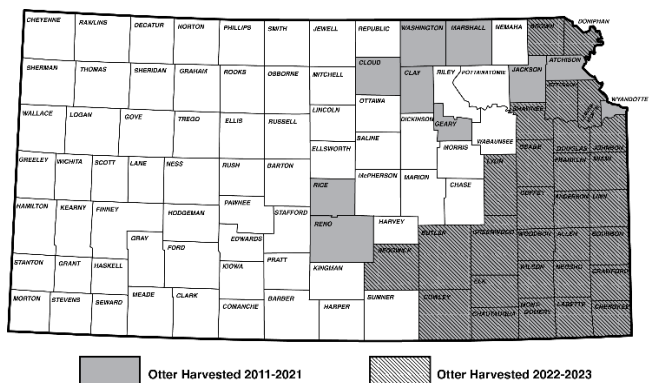

Figure 3. County of harvest of Kansas river otters.

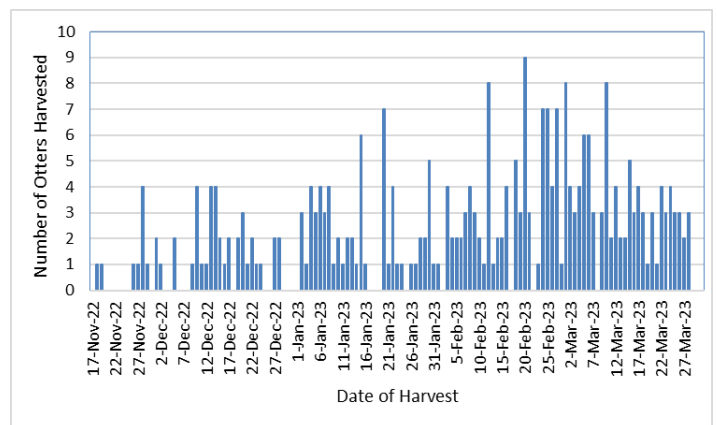

Figure 4. Reported number of otters taken per day during the 2022-23 furharvesting season (n=297).

Table 2. Number of furharvesters with various season bags of otters during the 2022-23 season.

Total Season Bag*	Number of Furharvesters	Percent of Furharvesters	Cumulative Percent of Furharvesters	Total number of Otters Taken	Percent of Otters Taken	Cumulative Percent of Otters Taken
1	53	47%	47%	53	18%	18%
2	24	21%	68%	48	16%	34%
3	11	10%	78%	33	11%	45%
4	8	7%	85%	32	11%	56%
5	4	4%	88%	20	7%	62%
6	3	3%	91%	18	6%	68%
7	1	1%	92%	7	2%	71%
8	2	2%	94%	16	5%	76%
9	1	1%	95%	9	3%	79%
10	5	4%	99%	50	17%	96%
12	1	1%	100%	12	4%	100%
Total	113			298		

*Any otters taken over the 10 otter bag limit were taken during nuisance trapping activities on an Wildlife Control Permit.

Table 3. Method of harvest and the primary species being trapped when otters were taken during the 2022-23 furharvesting season in Kansas.

METHOD	OTTER	BEAVER	BOBCAT	COYOTE	RACCOON	Groundhog	Salvage	Unspecified	Number	Percent
Foothold Trap	4	15						2	21	7.0
Bodygrip Trap	151	98		3	1			9	262	87.9
Cage Trap	1	3	1						5	1.7
Snare	4				1	1			6	2.0
Salvage							3		3	1.0
Unspecified		1							1	0.3
Subtotal Number	160	117	1	3	2			11	298	
Percent	53.7	39.3	0.3	1.0	0.7			3.7		100.0

Table 4. Location from which otters were taken during the 2022-23 furharvesting season in Kansas.

Harvest Location	Minimum Number of Unique Locations	Number of Otters	Percent of Otters
Reservoir/Lake	6	9	3.0
River	15	42	14.1
Creek	21	68	22.8
Pond		124	41.6
Strip Pit or quarry	6	18	6.0
Wildlife Area or marsh	8	26	8.7
Unspecified/Other		11	3.7
	56	298	100.0
